Tumpa's grandma wanted to gift her a doll on her birthday. She thought of buying it online. She used her credit card for payment. But to her horror, instead of 350 Taka, from her bank account 35000 Taka was taken away.

Let us look at some advantages that we get from E-commerce.

4.3 Its Advantages

Advantages for the buyers

- No need to go out in the market and buy.
- Saving expense and stress of transport.
- Saves time and energy of the buyers.
- See a huge variety and choose.
- Free from seasonal problems [heat, rains etc.]

Advantages for the sellers

- To be able to reach out to bigger market.
- To be able to offer variety of items without physically opening and folding them again and again.
- Saving money for not buying or renting a physical shop.
- Free from seasonal problems [heat, rains etc.]
- Opportunity for small traders [such as artistic items, bakeries and cloud kitchen]

But there are some disadvantages as well.

Nilofer works in an office. At home she has family with two small children. She does not get time to go for shopping yet to manage her job and house she needs regular items. She registered herself in an online shopping store. Now she is relaxed that all that she needs will get delivered to her in time and at reasonable cost as well. Only that she cannot go out of the house for any reason whatsoever, when the items are scheduled for arrival.

Huzefa opened an online departmental store. It was doing good busine
But in an unexpected storm in the area, they had to suffer power cut
a week. It not only caused general disturbances but also brought do
his rating in the online market.

4.1 Introduction

E-commerce is the name given to the process of buying and selling item and services over the Internet. We can also say that E-Commerce is th process of doing business using the Internet.

If we observe carefully, we will find that there are many people wh prefer sitting at home and order items online. Some people call for variou services, such as home cleaning, electricians and similar other ones.

E-commerce has become one of the integral part of our modern lifestyle. Shopping with E-commerce has its own set of advantages. But don't think it has only positive side. It has some disadvantages as well.

4.2 E-Commerce and Shopping

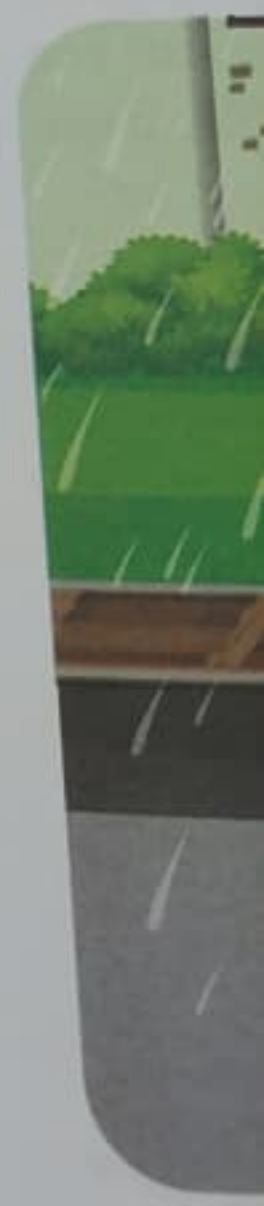

The increase in popularity of online shopping has opened a big box s solutions and problems.

Madeeha is a housewife. She cooks very tasty food. Her daughter, Mari opened a cloud kitchen in her name. Now she is not only cooking bu can earn money too from the orders that she is receiving. But witho Maria, Madeeha will find it extremely difficult to manage both cookin and selling.

return.

4.4 Its Disadvantages

Disadvantages for the buyers

- No personal touch or interaction with the seller.
- Misleading advertisements cause buyers to choose inappropriate items.
- Cannot judge the size of items, mainly dresses and shoes.
- Cannot understand the quality of items, mainly clothes.
- High chances of cyber crime.

Disadvantages for the sellers

- Fully dependent on the Internet. In case there is any issue with network connection or power supply, the system will not work.
- Unexpected losses caused from return of items.
- Highly competitive, it is not easy to catch crowd's attention.
- Consumes long hours online causing physical stress [eyes pain, body ache etc.]
- Complicated registration processes.

C. Mehraba and Saaira were fond of spy movies. Meherba sent few wrong sentences to Saaira for her to correct. Help Saaira to identify the mistakes and correct them.

i. Computers around the world are connected using wide city network.

ii. Rabeya used to do offline shopping using the Internet.

iii. Suhani wrote an email on paper.

iv. Zoya stayed in Dhaka and her brother Zahid went to Sylhet. They connected their computers using LAN.

v. Computers can be used only for doing calculations.

Younus is a stylish boy who wanted to dress nicely for Eid festival. He went to an online store and chose a beautiful sherwani. When he got the item delivered, he found that the sherwani was bigger in size, and sadly he could not wear it in Eid. Although he could return it still the grief was hard to come over.

It was raining heavily and Boibhav saw the Online delivery person wearing a raincoat and with a huge waterproof bag of items, was going from door to door delivering the items dry and clean. Good that the delivery man was well covered and was getting paid as well. It is a nice job opportunity for people who are willing to work hard and get paid in return.

FUN SET

A. Observe the given images carefully. Connect them to ethics and safety measures.

B. A word is hidden in each of the letters box. Find the words connect them to ethics and safety measures.

Formatting a Document

Formatting options help in designing a document. We can change f
colour, font size, font face, and many more options. Let us look into so
of the options.

The **Font group** under Home tab gives the Font changing options.

- **Font**: size, colour, bold, italics, underline, font face, font size, fo
  colour

Bold B	:	It makes the selected font appear bold.
Italics I	:	It makes the selected font appear in italics.
Underline U	:	It makes the selected font appear bold.
Font Face	:	It gives a choice of fonts of text.
Font Size	:	It gives a choice of size of text.
Font Colour A	:	It gives a choice of Font colours.

- **Alignment**: left, center, right, justify

This option changes the margins of a document. The margins can
arranged in four ways, as given below.

Align Text Left	:	It aligns text to the left.
Center	:	It aligns text to the center.
Align Text Right	:	It aligns text to the right.
Justify	:	It aligns text to both left and right margin, b adding required space between words.

- **Line Spacing**

Line Spacing o
The option is p

5A.1 Review of Formatting and Editing

Word processing is using a computer to create, edit, and print documents. The software that helps us to type the matter on a computer is known as a **word processor**.

You have already learnt some features of MS Word in the previous classes. Let us revise and also learn about some advanced features now.

5A.2 Components of a Word Window

5A.3 Formatting and Editing a document

Word has many features that enable you to modify text and also to apply design on text and make it look attractive.

Formatting: Changing the style of text and applying various designs on it is called **formatting**.

For example, you write a word in black. Then you change the colour of the word to red. This type of change is called formatting.

Editing: Change of text in a document, which includes correction and modification, is called **editing**.

For example, you write a word with a spelling mistake. Then you correct the mistake. This change is called editing.

Editing a Document

➤ Delete Key vs Backspace Key

Both keys are used for erasing text in a document. There
difference between these two keys in the direction of text
erase.

Delete Key erases text on the right side of the cursor. With the
of Delete key, text till the end of the document can be erased

Backspace Key erases text on the left side of the cursor. With
use of Backspace key, text till the beginning of the document
get erased.

The difference between these two keys can be understood bette
practical activity.

➤ Undo and Redo Commands

Undo: It is usually possible to reverse the last command by press
the Undo button.

Redo: This command is used to reverse the action of Undo comma

To use **Undo** and **Redo** command —

➤ Click on ↶ icon on the Quick Access Toolbar or press <Ctrl> +
If you want to reverse the **Undo** command that you have given,
click on **Redo**.

➤ Click on ↷ icon on the Quick Access Toolbar or press <Ctrl> +

Keyboard shortcut

Press **Ctrl + Z** to **undo** previous action.

Press **Ctrl + Y** to **redo** previous Undo.
