Singapore School Kinderland

Primary-1
IT
Worksheet
Term 1

Name of the student: _____

Chapter 1 · Primary Grade 1

Natural & Man-Made Things

Study Worksheet

Name:	Class:	Date:	

Topic 1 · Natural Things Around Us

Natural things are objects found directly from Nature. They are NOT made by humans.

Examples: Tree · Stone · Pineapple · Leaf · Jasmine Flower · Whale · Mountains · River · Mango

 Tree	 Stone	 Leaf	 Flower	 Whale	 Mountain	 River	 Mango

Topic 2 · Man-Made Things

Man-made things are objects MADE BY PEOPLE. They do not come from Nature.

Simple objects (no power): Table · Chair · Bicycle · Bottle · Pen · Comb

Machines (use power): Computer · Fan · Refrigerator · Television

 Table	 Bicycle	 Car	 Bottle	 Pen	 Computer

Topic 3 · Machines

A machine is a man-made object that can do specific tasks using **POWER** (electricity or fuel).

Machines help us do things **faster and easier!**

Examples: Refrigerator · Computer · Mixer · TV · Car · Boat · Fan · Water Pump · Vacuum Cleaner · Train · Airplane · Radio

 Computer	 Train	 Airplane	 Car	 Radio	 TV

Topic 4 · Types of Machines

Machines can be **Moving Machines**, **Fixed Machines**, or **Fixed Machines with Moving Parts**.

Moving Machines	Fixed Machines	Fixed + Moving Parts
Car	TV	Fan
Airplane	Desktop Computer	Mixer
Train	Radio	Sewing Machine
Bike	Water Pump	Wall Clock
Rocket		Cartwheel

★ Now We Know!

- Some objects are Natural — they come from Nature.
- Some objects are Man-Made — humans create them.
- Among man-made objects, some are simple objects and some are machines.
- Machines are man-made objects that can do specific tasks using power.
- Machines can be Moving, Fixed, or Fixed with Moving Parts.

Question 1 · Circle the Natural Things!

Draw a CIRCLE around every picture that is a NATURAL object.

 Rose ☐	 Bag ☐	 Onion ☐	 Truck ☐
 Football ☐	 Grass ☐	 Chess Board ☐	 River ☐

Question 2 · Write M for Machines!

Write M in the box under each item that is a MACHINE.

 Train ☐	 Jug of Water ☐	 Toaster ☐	 Clock ☐
 Horse ☐	 Jackfruit ☐	 Spoon ☐	 Microwave ☐

Question 3 · Sort It Out!

Write each word under the correct heading.

Word Bank: River · Computer · Whale · Chair · Mango · Bicycle

Natural Things	Man-Made Things
_____	_____
_____	_____
_____	_____

Question 4 · True or False!

Write T for True and F for False in the box.

T / F	Trees and rivers are natural things.
T / F	A machine can do specific tasks using power.
T / F	A bicycle is an example of a natural thing.
T / F	A car is a moving machine.
T / F	A fan stays in one place but its blades move.

Question 5 · What Type of Machine?

Write Moving, Fixed, or Fixed with Moving Parts for each machine.

1	**Airplane**	_____
2	**Fan**	_____
3	**Desktop Computer**	_____
4	**Train**	_____
5	**Wall Clock**	_____
6	**Rocket**	_____

Question 6 · Fill in the Blanks!

Word Bank: power · Nature · machines · man-made

Use the word bank above to fill each blank.

1. Natural things come directly from _____ .
2. Objects made by humans are called _____ things.
3. A machine does specific tasks using _____ .
4. Cars, trains, and fans are examples of _____ .

Chapter 2 · Primary Grade 1

Types of Machines

Fixed · Moving · Fixed with Moving Parts

Topic 1 · Fixed Machines

Fixed Machines remain in the SAME PLACE. They do not move from one place to another. They stay still while they work!

Examples: Microwave Oven · Television · Water Pump · Radio · Desktop Computer

 Microwave	 Television	 Water Pump	 Radio	 Desktop Computer	 Shallow Pump

Topic 2 · Moving Machines

Moving Machines change their place. They are MOVABLE — they can travel or be moved from one place to another!

Examples: Car · Airplane · Train · Bike · Laptop · Rocket

 Car	 Airplane	 Train	 Bike	 Laptop	 Rocket

Topic 3 · Fixed Machines with Moving Parts

Fixed Machines with Moving Parts remain in one place, BUT some of their parts move while they work!

Examples: Fan · Mixer · Sewing Machine · Wall Clock · Cartwheel · Shallow Pump

 Fan	 Mixer	 Sewing Machine	 Wall Clock	 Cartwheel	 Shallow Pump

Fixed	Moving	Fixed + Parts
Television	Car	Fan
Water Pump	Airplane	Mixer
Radio	Train	Sewing Machine
Desktop Computer	Bike	Wall Clock
Microwave	Rocket	Cartwheel

★ Now We Know!

- ➤ Fixed Machines remain in the same place (e.g. TV, Microwave).
- ➤ Moving Machines change their place — they are movable (e.g. Car, Train, Airplane).
- ➤ Fixed Machines with Moving Parts stay in one place but some parts of them move (e.g. Fan, Mixer).
- ➤ Some machines are fixed, some are movable, and some are fixed but have moving parts.

Question 7 · Match the Machine to its Type!

Draw a line to match each machine with its correct type.

Train	Fixed Machine
Fan	Moving Machine
Television	Fixed with Moving Parts
Airplane	Fixed Machine
Mixer	Moving Machine
Desktop Computer	Fixed with Moving Parts

Question 8 · Write the Type of Each Machine!

Write Fixed, Moving, or Fixed with Moving Parts in the box next to each machine.

1	Bike	
2	Sewing Machine	
3	Car	
4	Television	

5	Rocket	_____
6	Wall Clock	_____

Question 9 · True or False — Chapter 2!

Write T for True and F for False in the box.

T / F	Fixed machines remain in the same place.
T / F	A car is a fixed machine.
T / F	A fan stays in one place but its blades move.
T / F	An airplane is a moving machine.
T / F	A sewing machine is a fixed machine with no moving parts.

Question 10 · Fill in the Blanks!

Word Bank: fixed · moving · power · parts · movable

Use the word bank above to fill each blank.

1. Fixed machines remain in the same _____ .
2. Moving machines are _____ — they change their place.
3. A fan is fixed, but its _____ move.
4. A machine does its tasks using _____ .
5. A train is an example of a _____ machine.

Question 11 · Sort the Machines!

Write each machine name under the correct heading.

Word Bank: Television · Train · Fan · Rocket · Mixer · Desktop Computer

Fixed	Moving	Fixed + Parts
_____	_____	_____
_____	_____	_____

Excellent work! You are a Machine Expert! □□□

Teacher's Signature: _____ Parent's Signature: _____
