Student's Full Name:	_____
Grade & Section:	Primary 2 (_____) **Roll Number:** _____
Academic Year:	2026 – 2027 **Term:** Term 2
Subject Teacher:	_____ **Campus:** Singapore School Kinderland
Date of Submission:	_____
Teacher's Evaluation:	■ [ ] Outstanding (A+) ■ [ ] Excellent (A) ■ [ ] Good Effort (B)
Guardian Signature:	_____

■ TERM 2 CURRICULUM ROADMAP & PROGRESS TRACKER

Chapter / Module	Prescribed Topics & Learning Focus	Pages	Mastery Status
Chapter 2B Keyboard Lessons [Notepad]	• Introduction & Uses of Notepad • QWERTY Layout & Touch Typing Rules • Home Row Finger Placement (ASDF & JKL;) • Backspace & Delete Keys (Spelling Typos) • Sentence Typing & Creative Lab Practice	Pages 2–6	■■■ Checked [ ] Complete
Chapter 3 Operating System [MS Windows]	• OS & GUI Fundamentals • Desktop Components & Icons Grid • Taskbar, Clock & Volume Slider Control • Quick Launch Bar & Pinning Apps • Shortcut Menu & Wallpaper Customization • Windows Vocabulary & Crossword Puzzle	Pages 7–12	■■■ Checked [ ] Complete
Chapter 4 Algorithm	• Definition of Algorithm (Start & Stop Rules) • Cooking Vegetables & Cake Baking Sequences • Washing Machine & Tree Planting Algorithms • Student Algorithm Architect & Daily Routines	Pages 13–16	■■■ Checked [ ] Complete

■ 5 Golden Rules for Primary 2 Tech Stars:

1. **Clean Hands First:** Always keep hands clean and dry before touching computer equipment.
2. **Rest on Home Row:** Keep fingers resting gently on Home Row keys (A S D F & J K L ;).
3. **Programmer Mindset:** Every task has a logical order; follow instructions step by step from Start to Stop!
4. **Gentle Keystrokes:** Press keyboard keys smoothly with fingertips; never hit keys hard.
5. **Respect and Care:** Treat your classmates, teachers, and school computer lab with pride and kindness.

CHAPTER 2B · LESSON 1: INTRODUCTION TO NOTEPAD & TEXT EDITING (Pages 28–29)

■ **One-Line Topic Concept:** Notepad is a simple text editor program in Windows used to type, edit, and save plain text, stories, and sentences!

Untitled - Notepad — ❐ ×

File Edit Format View Help

Welcome to Primary 2 Computer Class! | *(Blinking Cursor)*
We are learning keyboard touch typing and sentence writing in Notepad.

Activity 1 · Fill in the Blanks with the Word Bank:

Word Bank: text editor • Cursor • Title Bar • save • Start

1. Notepad is a simple **text editor** program on a computer.
2. The small blinking line that shows where letters will appear is called the **Cursor**.
3. The top bar showing the document name is the **Title Bar**.
4. To keep our typed story for later, we must **save** our file.
5. To open Notepad, we first click on the Windows **Start** button.

Activity 2 · Write [T] for True or [F] for False:

[**F**] 1. Notepad is used to mix music and record audio. ➔ *F (False — It is for typing text)*
[**T**] 2. The cursor blinks on the screen to show typing position. ➔ *T (True)*
[**T**] 3. You can type both letters and numbers into Notepad. ➔ *T (True)*
[**F**] 4. Closing Notepad without saving keeps your typed work safely. ➔ *F (False — You must save first)*
[**T**] 5. We can save our Notepad documents with a chosen file name. ➔ *T (True)*

Activity 3 · Number the Steps to Open Notepad in Correct Order (1 to 3):

[**2**] Scroll and click on 'Windows Accessories' folder. ➔ *(Step 2)*
[**1**] Click on the Windows Start Button [■]. ➔ *(Step 1)*
[**3**] Click on the 'Notepad' program icon. ➔ *(Step 3)*

Activity 4 · Answer in Complete Sentences (Spacious Writing Lines):

1. What is Notepad used for?
➔ ***Notepad is used for typing letters, words, sentences, and saving notes on the computer.***

2. What is the small blinking vertical line on the Notepad screen called?
➔ ***It is called the blinking Cursor.***

3. Which menu inside Notepad do you click to save your work?
➔ ***We click on the 'File' menu and then click 'Save'.***

CHAPTER 2B · LESSON 2: THE QWERTY KEYBOARD & TOUCH TYPING RULES (Page 29)

■ **One-Line Topic Concept:** The computer keyboard arranges alphabet letters in three rows called Top Row, Home Row, and Bottom Row in the standard QWERTY layout!

TOP ROW	**Q W E R T Y U I O P**
HOME ROW ★	**A S D F G H J K L ;**
BOTTOM ROW	**Z X C V B N M , . /**
SPACEBAR	**[■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■ SPACEBAR ■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■ ■]**

Activity 1 · Keyboard Exploration: Name the First 6 Letters of the Top Row:

1st Letter	2nd Letter	3rd Letter	4th Letter	5th Letter	6th Letter
[Q]	[W]	[E]	[R]	[T]	[Y]

Activity 2 · Choose and Tick (✔) the Correct Option:

1. The keyboard gets its name 'QWERTY' from:
[ ] a) The inventor's pet cat [ ] b) The first 6 letters on the top row [ ] c) The spacebar
➔ **Correct Answer: b) The first 6 letters on the top row**

2. How many letter rows are there on a standard computer keyboard?
[ ] a) Two rows [ ] b) Three rows [ ] c) Ten rows
➔ **Correct Answer: b) Three rows**

3. Learning keyboard typing step-by-step helps you type:
[ ] a) Slower with mistakes [ ] b) Faster without looking [ ] c) With only one finger
➔ **Correct Answer: b) Faster without looking**

Activity 3 · Golden Rules of Touch Typing (Tick ✔ or Cross ✘):

[✔] 1. Rest each finger on its own assigned key on the Home Row.
[✘] 2. Keep looking down at the keyboard after typing every single word.
[✔] 3. Use both hands together instead of typing with just one index finger.
[✔] 4. Practice typing every week to build fast and accurate finger muscles.

Activity 4 · Three Letter Rows Classification Drill:

From the keyboard, write two letters that belong to each row:

Keyboard Row	Letter 1	Letter 2
1. Top Row	**Q / W / E / R**	**T / Y / U / I**
2. Home Row	**A / S / D / F**	**J / K / L / ;**
3. Bottom Row	**Z / X / C / V**	**B / N / M**

Activity 5 · Answer in Complete Sentences (Spacious Writing Lines):

Why should we practice touch typing with both hands instead of one finger?
➔ ***Because using both hands helps us type much faster, accurately, and without looking at the keys.***

Which finger presses the spacebar key?
➔ ***Both thumbs are used to press the spacebar key gently.***

CHAPTER 2B · LESSON 3: HOME ROW FINGER MASTERY (Pages 30–31)

■ **One-Line Topic Concept:** Our fingers always rest on the middle 'Home Row' keys: Left hand fingers on A S D F, Right hand fingers on J K L ;, and thumbs on the Spacebar!

LEFT HAND FINGERS (A - S - D - F)	THUMBS	RIGHT HAND FINGERS (J - K - L - ;)
• Little Finger ➔ **A** • Ring Finger ➔ **S** • Middle Finger ➔ **D** • Index Finger ➔ **F**	**SPACEBAR** (Both thumbs rest gently on the long Spacebar)	• Index Finger ➔ **J** • Middle Finger ➔ **K** • Ring Finger ➔ **L** • Little Finger ➔ **; (Semicolon)**

Activity 1 · Match the Finger with the Target Letter Key:

Hand & Finger	Target Key	Answer Bracket
1. Left Little Finger	a) Letter F	**1 ➔ d (Letter A)**
2. Left Index Finger	b) Letter J	**2 ➔ a (Letter F)**
3. Right Index Finger	c) Spacebar	**3 ➔ b (Letter J)**
4. Right Ring Finger	d) Letter A	**4 ➔ e (Letter L)**
5. Both Thumbs	e) Letter L	**5 ➔ c (Spacebar)**

Activity 2 · Sort the Keys into Left Hand and Right Hand Boxes:

Letters to sort: S, K, F, ;, A, J, D, L

Left Hand Keys (A S D F)	Right Hand Keys (J K L ;)
A, S, D, F	**J, K, L, ;**

Activity 3 · Home Row Word Builders (Typing Drill):

Using ONLY keys from the Home Row (A, S, D, F, G, H, J, K, L), spell each word:

1. A + S + K = ASK	**2. F + A + L + L = FALL**
3. F + L + A + S + K = FLASK	**4. G + L + A + D = GLAD**

Activity 4 · Answer in Complete Sentences (Spacious Writing Lines):

1. Which two fingers rest on the F and J keys?

➔ ***Left index finger rests on F, and right index finger rests on J.***

2. Where do both thumbs gently rest while typing?

➔ ***Both thumbs rest gently on the long Spacebar key.***

3. Why is the middle row called the 'Home Row'?

➔ ***Because our fingers always begin here and return home after pressing other keys.***

CHAPTER 2B · LESSON 4: CORRECTION KEYS & TYPO DETECTIVE (Pages 34–35)

■ **One-Line Topic Concept:** The Backspace key deletes characters to the left of the blinking cursor (←), while the Delete key erases characters to the right of the cursor (→).

■ BACKSPACE KEY (Arrow Left ←)	■ DELETE KEY (Arrow Right →)
• Erases the character **BEFORE (to the left)** of the cursor. • Example: Cat|t ➔ press Backspace ➔ Cat|	• Erases the character **AFTER (to the right)** of the cursor. • Example: |tCat ➔ press Delete ➔ |Cat

Activity 1 · Key Detective: Fix the Repeated Letters! (Textbook Page 34)

Typo in Notepad	Extra Letters to Remove	Correct English Word
1. eeenglish	Remove extra 'e's	**English**
2. whhhite	Remove extra 'h's	**White**
3. greeeen	Remove extra 'e's	**Green**
4. bananana	Remove extra 'na'	**Banana**
5. aappllee	Remove extra 'a', 'l', 'e'	**Apple**
6. cricckeeeeeet	Remove extra 'c' & 'e'	**Cricket**
7. foooooootbaaaall	Remove extra vowels	**Football**

Activity 2 · Quick Scenario: Which Key Will You Press?

• 1. The cursor is placed directly AFTER an unwanted letter: *Bookk*| ➔ **Backspace Key**

• 2. The cursor is placed directly BEFORE an unwanted letter: |*kBook* ➔ **Delete Key**

• 3. You want to make a neat space between two words: *MyComputer* ➔ **Spacebar Key**

Activity 3 · Classroom Sentence Typo Fixer (Spacious Writing Lines):

Read the sentence with accidental repeated letters. Write the clean, correct sentence below:

1. Sentence with typos: *'I liikeee myy compuuter.'*

➔ **Clean Sentence: *I like my computer.***

2. Sentence with typos: *'Shee haas aa reeed baag.'*

➔ **Clean Sentence: *She has a red bag.***

3. Sentence with typos: *'Theee caat raan faast.'*

➔ **Clean Sentence: *The cat ran fast.***

Activity 4 · Answer in Complete Sentences:

Explain the main difference between Backspace and Delete keys:

➔ ***Backspace deletes letters to the left of cursor, while Delete erases letters to the right of cursor.***

CHAPTER 2B · LESSON 5: SENTENCE TYPING & CREATIVE LAB (Pages 32–33)

■ **One-Line Topic Concept:** Typing complete sentences in Notepad trains our fingers to coordinate smoothly with the spacebar and helps us become fluent keyboard masters!

Activity 1 · Textbook Typing Sentences Drill (Pages 33–34):

Read each statement carefully. Practice writing it cleanly in uppercase letters:

1. SHE LIKES GOOD FOOD.

Line 1: _____

Line 2: _____

2. THE KITE SHOW WAS AT WEST GATE.

Line 1: _____

Line 2: _____

3. LETTER WRITING SKILL WILL HELP HER.

Line 1: _____

Line 2: _____

4. CRICKET IS A POPULAR OUTDOOR GAME.

Line 1: _____

Line 2: _____

5. COMPUTERS HELP US LEARN CODING AND ART.

Line 1: _____

Line 2: _____

Activity 2 · ■ Creative Lab Corner: Design Your Notepad Story!

Imagine this window is your blank Notepad screen. Write 3 sentences about your computer lab:

MyStory.txt - Notepad — ❐ ✕

File Edit Format View Help

Sample Student Writing:
Line 1: I love studying computer lessons in Singapore School Kinderland.
Line 2: I use both hands to type letters on the Home Row keys.
Line 3: Touch typing helps me finish my worksheets quickly and neatly.

Activity 3 · Essential Keyboard Function Drill:

- 1. Which key do you press to start a new typing line in Notepad? ➔ **Enter Key**
- 2. Which key turns ALL typed letters into CAPITAL letters? ➔ **Caps Lock Key**
- 3. Which long key is used to insert spaces between words? ➔ **Spacebar Key**
- 4. Which key do you hold down to type one capital letter? ➔ **Shift Key**

■■■■■ **Chapter 2B Mastery Badge: You are now an Official Home Row Typist!**

CHAPTER 3 · LESSON 1: FEATURES OF OPERATING SYSTEM & GUI (Pages 36–37)

■ **One-Line Topic Concept:** An Operating System (OS) is the most important software of a computer that helps users communicate with hardware, and GUI gives friendly pictures and icons to click easily!

■■ What is an Operating System (OS)?	■■ What is a GUI (Graphical User Interface)?
• It is **impossible** to work on a computer without an OS. • It acts as a bridge between the user and hardware (keyboard, mouse, screen). • It manages all computer parts smoothly.	• A **user-friendly** operating system. • Gives us pictorial options (icons, buttons, menus) to click instead of typing codes. • **Microsoft Windows** is the world's most popular GUI!

Activity 1 · Choose and Circle the Best Answer:

1. What is the most important software of any computer?
a) MS Paint b) Operating System (OS) c) Calculator
➔ **Correct Answer: b) Operating System (OS)**

2. Can we work on a computer without an Operating System?
a) Yes, very easily b) No, it is impossible c) Only on weekends
➔ **Correct Answer: b) No, it is impossible**

3. GUI stands for:
a) Great User Internet b) Graphic User Interface c) General Utility Icon
➔ **Correct Answer: b) Graphic User Interface**

Activity 2 · Write [T] for True or [F] for False:

[**T**] 1. Windows is an example of an Operating System. ➔ *T (True)*
[**F**] 2. Hardware can operate completely on its own without any software. ➔ *F (False — It requires an OS)*
[**T**] 3. A GUI provides icons, buttons, and menus that are easy to click. ➔ *T (True)*
[**F**] 4. Users must memorize complicated code commands to run MS Windows. ➔ *F (False — GUI uses simple clicks)*
[**F**] 5. You can use a computer monitor to display videos without an OS. ➔ *F (False — OS controls display)*

Activity 3 · Sort the Computer Items into the Correct Group:

Word Bank: Keyboard • MS Paint • Windows 10 • Mouse • Calculator • Linux

Hardware Parts	Application Software	Operating System (OS)
• **Keyboard** • **Mouse**	• **MS Paint** • **Calculator**	• **Windows 10** • **Linux**

Activity 4 · Answer in Complete Sentences (Spacious Writing Lines):

1. Why is the Operating System called the 'Manager' of the computer?
➔ ***Because it manages all the hardware parts and helps the user talk to the machine easily.***

2. Name two things that you see on a Graphical User Interface (GUI):
➔ ***1. Colorful Icons 2. Menus and Buttons***

3. What is the world's most popular GUI Operating System?
➔ ***Microsoft Windows (developed by Microsoft Corporation).***

CHAPTER 3 · LESSON 2: THE WINDOWS DESKTOP & ICONS (Pages 37–38)

■ **One-Line Topic Concept:** The Desktop is the main first screen of Windows, and Icons are small pictures on it that represent programs, files, or folders!

■■ WINDOWS DESKTOP SCREEN SIMULATOR

[■ This PC] Opens files and drives **[■■ Recycle Bin]** Stores deleted files **[■ MS Paint]** Drawing and colors	**DESKTOP WORKSPACE (WALLPAPER AREA)** • The colorful picture is called **Wallpaper**. • Icons can be selected by single-clicking. • Icons can be opened by double-clicking!
[■ Start] [■ Edge] [■ Notepad] [■ File Explorer]	TASKBAR NOTIFICATION: [■ 85%] [10:30 AM]

Activity 1 · Who Am I? Guess the Desktop Part!

• 1. I am the very first screen that appears when Windows boots up. ➜ **Desktop**
• 2. I am a small labelled picture on the desktop that opens a program. ➜ **Icon**
• 3. I am the long narrow horizontal bar at the very bottom of the screen. ➜ **Taskbar**
• 4. I am the special icon that holds all unwanted or deleted files safely. ➜ **Recycle Bin**

Activity 2 · Fill in the Blanks with the Word Bank:

Word Bank: Wallpaper • Double-click • Icons • Desktop • Select

1. The small pictures on the desktop are called **Icons**.
2. To open an icon into a running program, we **Double-click** on it.
3. The background picture of the desktop is called the **Wallpaper**.
4. A single left-click on an icon is used to **Select** it.
5. The primary workspace screen of Windows is the **Desktop**.

Activity 3 · Match Common Desktop Icons to Their Purpose:

Desktop Icon	Function / Purpose	Answer Bracket
1. Recycle Bin	a) Lets us create drawings and paintings	**1 ➜ b (Deleted files)**
2. This PC	b) Stores deleted files and junk documents	**2 ➜ c (Disk drives)**
3. MS Paint	c) Opens all computer folders and disk drives	**3 ➜ a (Drawings)**

Activity 4 · Answer in Complete Sentences (Spacious Writing Lines):

1. How do you SELECT an icon on the desktop?
➜ ***We click on the icon once with the left mouse button.***

2. How do you OPEN a program from a desktop icon?
➜ ***We double-click on the icon quickly with the left mouse button.***

CHAPTER 3 · LESSON 3: THE TASKBAR & SPEAKER VOLUME (Pages 38–39)

■ **One-Line Topic Concept:** The Taskbar sits at the bottom of the desktop, holding the Start button, open program buttons, and the volume slider to easily make sound high or low!

TASKBAR NOTIFICATION AREA: VOLUME CONTROLLER

Step-by-Step Sound Control Guide:

1. Locate the **Speaker icon [■]** on the taskbar (near the clock).
2. Click the speaker icon to open the popup volume slider bar.
3. Drag the slider **UP [■]** ➔ Volume increases (LOUDER / HIGH).
4. Drag the slider **DOWN [■]** ➔ Volume decreases (SOFTER / LOW).
5. Clicking the speaker icon can also **Mute** all computer sounds instantly!

[■ UP]
LOUDER
▲
■ (Slider)
▼
SOFTER
[■ DOWN]

Activity 1 · High or Low? Fill in the Sound Blanks:

Word Bank: UP • DOWN • Taskbar • Speaker • mute

1. The volume icon looks like a small **Speaker** on the taskbar.
2. To make the volume loud and high, drag the controller slider **UP**.
3. To make the volume soft and low, drag the controller slider **DOWN**.
4. The volume controller is always present on the **Taskbar**.
5. Clicking the speaker button can temporarily **mute** all computer audio.

Activity 2 · Write [T] for True or [F] for False:

[**T**] 1. The taskbar contains the Start button and the clock. ➔ *T (True)*
[**F**] 2. Dragging the volume controller down makes the sound louder. ➔ *F (False — It makes sound lower)*
[**F**] 3. The taskbar can be found floating in the middle of icons. ➔ *F (False — It is at the bottom)*
[**T**] 4. We can see buttons of all currently open programs on the taskbar. ➔ *T (True)*
[**T**] 5. You can mute the sound without turning off the computer. ➔ *T (True)*

Activity 3 · Three Main Sections of the Taskbar:

Section of Taskbar	What it Contains	Answer Bracket
1. Left End	a) Clock, speaker volume, and network icons	**1 ➔ c (Start Button)**
2. Middle Section	b) Icons of open apps and pinned quick shortcuts	**2 ➔ b (Open apps)**
3. Right End (Notification)	c) The Windows Start Button [■]	**3 ➔ a (Clock & sound)**

Activity 4 · Classroom Audio Scenarios (Spacious Writing Lines):

1. Your teacher asks everyone to soften the computer sound. What will you do?
➔ ***I will click the speaker icon and drag the volume slider DOWN to make it softer.***

2. What happens if you click the Mute button on the taskbar?
➔ ***All computer audio and sounds will be silenced immediately.***

CHAPTER 3 · LESSON 4: DATE & TIME AND QUICK LAUNCH BAR (Pages 38–39)

■ **One-Line Topic Concept:** The Quick Launch Bar provides a super-fast way to open favourite programs right next to the Start button, while the taskbar clock keeps accurate date and time!

ADJUSTING DATE & TIME AND PINNING APPS

■ **Changing Date & Time (Page 38):**
1. Right-click on the date/time clock icon on the taskbar.
2. Select **'Adjust date and time'**.
3. Turn OFF *'Set time automatically'*.
4. Click the **'Change'** button, set new date/time, and click save!

■ **Quick Launch Bar (Page 39):**
A group of buttons placed next to the Start button.
2 Ways to Pin an App:
• **Way 1:** Drag icon from desktop to taskbar.
• **Way 2:** Right-click open app on taskbar and select *'Pin to taskbar'*.

Activity 1 · How to Add (Pin) an Application to the Taskbar:

According to Page 39 of the textbook, write the missing words for the **two ways**:

Way 1: Click and **drag** the icon from the desktop to the taskbar.

Way 2: If an app is open, right-click its icon on taskbar and select '**Pin to taskbar**'.

Activity 2 · Number the Steps to Change Date and Time in Order (1 to 4):

[**2**] Turn off 'Set time automatically'. ➔ *(Step 2)*

[**1**] Right-click the clock icon on the taskbar. ➔ *(Step 1)*

[**4**] Give your choice of date and click 'Change'. ➔ *(Step 4)*

[**3**] Click on the 'Change button'. ➔ *(Step 3)*

Activity 3 · Quick Launch Bar Detective Quiz:

1. Where is the Quick Launch Bar located on the taskbar?
[ ] a) Next to the Start button [ ] b) Inside the Recycle Bin [ ] c) Under the mouse pad
➔ **Correct Answer: a) Next to the Start button**

2. Why do we pin programs to the Taskbar / Quick Launch Bar?
[ ] a) To delete them forever [ ] b) To open favourite apps quickly [ ] c) To turn off the screen
➔ **Correct Answer: b) To open favourite apps quickly**

Activity 4 · Answer in Complete Sentences (Spacious Writing Lines):

1. How do you UNPIN an application from the taskbar when you do not need it?
➔ ***Right-click the app's icon on the taskbar and select 'Unpin from taskbar'.***

2. Where on the taskbar can you see the current date and time?
➔ ***At the bottom right corner in the Notification Area.***

3. Why is it helpful to have the clock on the taskbar?
➔ ***It helps students check the time quickly while working on class assignments.***

4. Can you set time manually if 'Set time automatically' is ON?
➔ ***No, you must switch OFF 'Set time automatically' before changing the clock manually.***

CHAPTER 3 · LESSON 5: SHORTCUT MENU & WALLPAPER CUSTOMIZATION (Page 40)

■ **One-Line Topic Concept:** Right-clicking any empty area of the desktop opens the Shortcut Menu, where clicking 'Personalize' lets us choose colourful wallpapers and pictures!

DESKTOP SHORTCUT MENU (RIGHT-CLICK)

View ➔ **Sort by ➔** **Refresh** **New ➔** **Display settings** **Personalize ★ [CLICK HERE TO CHANGE WALLPAPER!]**	**How to Change Desktop Wallpaper:** 1. **Right-click** on empty desktop space. 2. Click **'Personalize'** at bottom of menu. 3. A list of background options will appear. 4. Click your favourite picture or photo!

Activity 1 · Number the Steps to Change Desktop Wallpaper (1 to 3):

[**3**] Choose and click on your favourite wallpaper picture. ➔ *(Step 3)*

[**1**] Right-click on an empty space on the desktop. ➔ *(Step 1)*

[**2**] Click on the 'Personalize' option from the Shortcut menu. ➔ *(Step 2)*

Activity 2 · Left-Click vs. Right-Click: Match the Mouse Action

Mouse Action	What Happens?	Answer Bracket
1. Left-Click once	a) Opens the Shortcut menu	**1 ➔ b (Selects item)**
2. Double Left-Click	b) Selects an item on screen	**2 ➔ c (Opens program)**
3. Right-Click once	c) Opens a program or folder	**3 ➔ a (Shortcut menu)**

Activity 3 · Personalize Exploration: What Can You Change? (Tick ✔ or Cross ✘):

[✔] 1. Desktop background picture (Wallpaper) ➔ ✔ *(Can change)*

[✔] 2. Windows theme colors and accents ➔ ✔ *(Can change)*

[✘] 3. The physical color of the plastic mouse ➔ ✘ *(Cannot change on screen)*

[✔] 4. Screen Saver animation when computer is idle ➔ ✔ *(Can change)*

Activity 4 · Answer in Complete Sentences (Spacious Writing Lines):

1. How do you open the Shortcut Menu on the desktop?

➔ ***By clicking the RIGHT mouse button on any empty space of the desktop.***

Activity 5 · ■ Creative Corner: Design Your Dream Desktop Wallpaper!

Draw and color your favourite computer wallpaper inside this screen frame (Nature, Space, or Robots):

■■ MY DREAM DESKTOP WALLPAPER CANVAS

[Creative Drawing Space: Students draw and colour their custom background wallpaper]

CHAPTER 3 · LESSON 6: REVIEW DRILL & CROSSWORD PUZZLE (Pages 41–42)

■ **One-Line Topic Concept:** Mastering computer vocabulary through puzzles and quizzes makes learning exciting and turns us into confident digital explorers!

■ Official Textbook Crossword Activity (Page 42):

D1 (T)	**A**	**S**	**K**	**B**	**A**	**R**
A1 (D)	**E**	**S**	**K**	**T**	**O**	**P**
D2 (I)	**C**	**O**	**N**	**S**		
A2 (R)	**I**	**G**	**H**	**T**	**-**	**CLICK**

• Across A1: It is the starting screen when the computer is switched on. ➔ Answer: **DESKTOP**

• Across A2: The Shortcut menu appears when you do this with mouse. ➔ Answer: **RIGHT-CLICK**

• Down D1: It is the bar at the bottom that mainly contains the Start button. ➔ Answer: **TASKBAR**

• Down D2: Small images present on the desktop that connect to apps. ➔ Answer: **ICONS**

Activity 2 · Textbook Master Drill (Page 41 True or False):

[**F**] 1. The taskbar contains the entire desktop. ➔ *F (False — Desktop contains taskbar)*

[**T**] 2. Various icons are visible on the desktop. ➔ *T (True)*

[**F**] 3. MS Windows is a popular hardware. ➔ *F (False — It is software / OS)*

[**T**] 4. Quick Launch Bar is placed next to the Start button on the Taskbar. ➔ *T (True)*

[**F**] 5. The Shortcut menu appears when you left-click on any item. ➔ *F (False — Appears on right-click)*

Activity 3 · Match the Term with Its Definition:

Windows Term	Meaning / Definition	Answer Bracket
1. GUI	a) Picture shown on desktop background	**1 ➔ d (Graphic User Interface)**
2. Wallpaper	b) Bar with Start button at the bottom	**2 ➔ a (Background picture)**
3. Taskbar	c) Pop-up list when right-clicking desktop	**3 ➔ b (Bottom bar)**
4. Shortcut Menu	d) Graphic User Interface with icons	**4 ➔ c (Pop-up list)**

Activity 4 · Final Windows Review Questions (Spacious Writing Lines):

1. Which two items are always located on the Taskbar?

➔ ***The Start Button and the System Clock (Date & Time).***

2. What happens when you empty the Recycle Bin?

➔ ***All deleted files and folders are permanently removed from the computer.***

3. Write the 3 steps to shut down a computer safely:

➔ ***Step 1: Click Start button. Step 2: Click Power icon. Step 3: Click 'Shut down'.***

■■■■■ **Chapter 3 Mastery Badge: You are now a Windows Operating System Star!**

CHAPTER 4 · LESSON 1: WHAT IS AN ALGORITHM? (Pages 43–44)

■ **One-Line Topic Concept:** An Algorithm is a step-by-step set of simple instructions followed in order from START to STOP to solve a problem or complete a task!

ANATOMY OF AN ALGORITHM: FROM START TO STOP

[■ START] ➔ **Step 1:** Clear Action ➔ **Step 2:** Next Action ➔ **Step 3:** Finish Action ➔ **[■ STOP]**
• **Rule 1:** Every algorithm MUST have a clear **START** and **STOP**.
• **Rule 2:** Steps must be followed in **exact sequential order** (1, 2, 3...).
• **Rule 3:** A computer cannot guess; instructions must be simple and precise!

Activity 1 · Complete the Official Definition of Algorithm:

Word Bank: instructions • step-by-step • STOP • START • task

An algorithm is a **step-by-step** set of **instructions** designed to perform a specific **task**. It always begins with **START** and ends with **STOP**.

Activity 2 · Write [T] for True or [F] for False:

[**F**] 1. An algorithm can start without any beginning step. ➔ *F (False — It must begin with START)*
[**T**] 2. Changing the order of steps in an algorithm can cause wrong results. ➔ *T (True)*
[**T**] 3. Computers follow algorithms given by programmers. ➔ *T (True)*
[**T**] 4. Real-life daily routines are also examples of algorithms. ➔ *T (True)*
[**F**] 5. Skipping a step in an algorithm is completely fine. ➔ *F (False — Every step is necessary)*

Activity 3 · Which of these are Real-Life Algorithms? (Write YES or NO):

• 1. Baking a chocolate cake by following a cookbook recipe ➔ **YES**
• 2. Dreaming while sleeping at night without control ➔ **NO**
• 3. Brushing your teeth in the morning step-by-step ➔ **YES**
• 4. Washing clothes using a washing machine cycle ➔ **YES**

Activity 4 · Answer in Complete Sentences (Spacious Writing Lines):

1. What are the two mandatory words that begin and end every algorithm?
➔ ***Every algorithm must begin with START and end with STOP.***

2. Why is it important to follow steps in exact order?
➔ ***Because if we change the order or skip steps, the task will fail and produce wrong results.***

Activity 5 · Match the Algorithm Rule with Its Purpose:

Algorithm Rule	Why it Matters?	Answer Bracket
1. Clear START point	a) Steps must be easy so computers don't fail	**1 ➔ c (Beginning)**
2. Step-by-Step Order	b) Tells when the problem is solved and finished	**2 ➔ d (Exact sequence)**
3. Definite STOP point	c) Shows exactly where the process begins	**3 ➔ b (Finished)**
4. Simple Instructions	d) Guarantees correct result without confusion	**4 ➔ a (Clear steps)**

CHAPTER 4 · LESSON 2: COOKING & CAKE BAKING ALGORITHMS (Pages 44–46)

■ **One-Line Topic Concept:** Cooking vegetables and baking cakes are delicious examples of everyday algorithms where ingredients must be added in the right order!

■ CHEF'S ALGORITHM GUIDE: ORDER OF ACTIONS

- **[START]** ➔ Gather clean ingredients and cooking tools.
- **Preparation:** Wash, peel, and cut fresh ingredients.
- **Cooking:** Mix, boil, fry, or bake with heat.
- **[STOP]** ➔ Serve food neatly and turn off appliances!

Activity 1 · Number the Cake Baking Steps in Correct Order (1 to 4):

(Based on Textbook Page 45 Cake Algorithm):

[**3**] Bake the batter in the oven at the right temperature. ➔ *(Step 3)*

[**1**] Gather ingredients (flour, eggs, sugar, butter). [START] ➔ *(Step 1)*

[**4**] Decorate with frosting and serve delicious cake slices! [STOP] ➔ *(Step 4)*

[**2**] Mix ingredients together into a smooth batter bowl. ➔ *(Step 2)*

Activity 2 · Fill in the Missing Cooking Steps (Textbook Page 44):

Word Bank: START • Wash • Cut • Fry • STOP

- Step 1: **START**
- Step 2: **Wash** the fresh vegetables thoroughly with clean water.
- Step 3: **Cut** the washed vegetables into small cooking pieces.
- Step 4: Put pan on stove, add oil and **Fry** vegetables with spices.
- Step 5: Turn off stove and serve hot. **STOP**.

Activity 3 · Number the Steps to Make Fresh Orange/Mango Juice (1 to 4):

[**4**] Pour fresh juice into a glass and serve with a straw. [STOP] ➔ *(Step 4)*

[**1**] Wash and peel the fresh ripe fruits. [START] ➔ *(Step 1)*

[**3**] Blend smoothly in a blender with water and honey. ➔ *(Step 3)*

[**2**] Cut the peeled fruits into clean slices. ➔ *(Step 2)*

Activity 4 · Critical Thinking (Spacious Writing Lines):

1. Can you bake a cake before mixing the ingredients together? Explain why:

➔ ***No, because if you don't mix ingredients first, it will not become cake batter and will be ruined.***

2. What is the very first step in cooking any vegetable dish?

➔ ***Washing the fresh vegetables thoroughly with clean water.***

Activity 5 · Daily Breakfast Routine: 'Making Crunchy Butter Toast' (Order 1 to 4):

[**3**] Spread delicious butter or jam over the warm toast. ➔ *(Step 3)*

[**1**] Place two slices of fresh bread into the toaster. [START] ➔ *(Step 1)*

[**4**] Enjoy your crispy breakfast toast with milk! [STOP] ➔ *(Step 4)*

[**2**] Press down lever and wait for golden slices to pop up. ➔ *(Step 2)*

CHAPTER 4 · LESSON 3: MACHINE & NATURE ALGORITHMS (Pages 46–48)

■ **One-Line Topic Concept:** Washing machines follow built-in computer algorithms, and growing trees follows nature's biological step-by-step algorithm!

Activity 1 · Number the Steps for Planting a Sapling (Textbook Page 46):

[**4**] Water the plant regularly and provide sunlight. ➔ *(Step 4)*

[**1**] Dig a small pit in fertile garden soil. [START] ➔ *(Step 1)*

[**5**] Watch the sapling grow into a healthy tree! [STOP] ➔ *(Step 5)*

[**2**] Place the young sapling carefully into the pit. ➔ *(Step 2)*

[**3**] Cover the roots properly with soil and compost. ➔ *(Step 3)*

Activity 2 · Washing Machine Algorithm: Fill in the Steps (Textbook Page 47):

Word Bank: Detergent • START • Spin & Dry • Dirty Clothes • STOP

• Step 1: Press the power button to **START** the machine.

• Step 2: Put the **Dirty Clothes** inside the washing drum.

• Step 3: Add washing powder / **Detergent** into the dispenser tray.

• Step 4: Machine washes, rinses, and enters **Spin & Dry** cycle.

• Step 5: Machine beeps, take out clean clothes and **STOP**.

Activity 3 · Number the Steps for a Tailor Stitching a Shirt (1 to 4):

(Based on Textbook Page 47 Tailor Algorithm):

[**3**] Stitch the cut pieces together using the sewing machine. ➔ *(Step 3)*

[**1**] Take body measurements using a measuring tape. [START] ➔ *(Step 1)*

[**4**] Attach buttons, iron the shirt, and pack neatly! [STOP] ➔ *(Step 4)*

[**2**] Mark and cut the cloth fabric according to measurements. ➔ *(Step 2)*

Activity 4 · Answer in Complete Sentences (Spacious Writing Lines):

1. Why does a washing machine need an exact algorithm to work properly?

➔ ***Because it is an automatic machine that must wash, rinse, and spin dry in exact sequence.***

2. What biological algorithm does a tiny seed follow to grow into a tall green tree?

➔ ***Roots absorb water and nutrients from soil while stem grows upward toward sunlight to sprout leaves.***

Activity 5 · Real-Life Algorithm Comparison Master Table:

Category	Starting Step (Input)	Step-by-Step Algorithm (Process)	Final Goal (Output)
Machine Algorithm (Washing Machine)	Press Power & load dirty clothes	Washes with soap, rinses with water, and spins dry automatically	Clean, dry clothes ready to fold
Nature Algorithm (Planting a Sapling)	Dig fertile pit and place seedling	Roots drink water from soil; leaves absorb sunlight to grow stem taller	Strong green tree with shade & fruits
Human Algorithm (Tailor Stitching)	Measure student with measuring tape	Cut cloth fabric neatly along markings and stitch seams on machine	Neat, perfectly fitted school uniform

CHAPTER 4 · LESSON 4: STUDENT ALGORITHM ARCHITECT & CERTIFICATE (Pages 49–50)

■ **One-Line Topic Concept:** Every student is a Junior Algorithm Architect who organizes daily routines step by step to achieve outstanding success!

Activity 1 · Routine Algorithm 1: 'Brushing My Teeth' (Order 1 to 4):

[**2**] Brush teeth gently in circles for 2 minutes. ➔ *(Step 2)*

[**1**] Put toothpaste on toothbrush. [START] ➔ *(Step 1)*

[**4**] Smile with sparkly clean white teeth! [STOP] ➔ *(Step 4)*

[**3**] Rinse mouth and brush with clean water. ➔ *(Step 3)*

Activity 2 · Routine Algorithm 2: 'Packing My School Bag' (Order 1 to 4):

[**1**] Check the school class timetable for tomorrow. [START] ➔ *(Step 1)*

[**4**] Zip up school bag and place water bottle in pocket. [STOP] ➔ *(Step 4)*

[**2**] Put subject textbooks and notebooks into the bag neatly. ➔ *(Step 2)*

[**3**] Pack pencil case with sharpened pencils and eraser. ➔ *(Step 3)*

Activity 3 · Routine Algorithm 3: 'Getting Ready for School' (Order 1 to 4):

[**1**] Wake up when the morning alarm rings. [START] ➔ *(Step 1)*

[**4**] Board the school bus safely with a happy smile! [STOP] ➔ *(Step 4)*

[**2**] Take a bath and wear the clean school uniform. ➔ *(Step 2)*

[**3**] Eat healthy breakfast and drink warm milk. ➔ *(Step 3)*

Activity 4 · Junior Algorithm Architect Reflection (Spacious Lines):

Why do daily routine algorithms help students become organized and successful?

➔ ***Because following clear steps every day saves time, prevents mistakes, and keeps everything neat!***

Activity 5 · Routine Algorithm 4: 'Bedtime Good Night Routine' (Order 1 to 4):

[**1**] Change into comfy pajamas and wash face. [START] ➔ *(Step 1)*

[**4**] Close eyes, relax, and fall asleep with sweet dreams! [STOP] ➔ *(Step 4)*

[**2**] Read an interesting storybook with mom and dad. ➔ *(Step 2)*

[**3**] Switch off the bedroom lights and get into warm bed. ➔ *(Step 3)*

■ OFFICIAL CERTIFICATE OF ACHIEVEMENT ■

SINGAPORE SCHOOL KINDERLAND • PRIMARY 2 IT DEPARTMENT

This certifies that Primary 2 Student:

_____

has successfully completed all **16 pages** of the **Term 2 IT Activity Workbook**,
mastering **Keyboarding in Notepad**, **Windows Operating System**, and **Algorithm Logic**!

■■■■■ JUNIOR IT MASTER GRADUATE ■■■■■

Subject Teacher Signature: _____ **Head of Department:** _____ **Date:** _____
