2026 - 2027

Primary 3

Information Technology

Part 2

Date: _____ Name: _____

Instructions:

- Start answering the questions on time.
- Follow all instructions carefully.
- Answer all questions.
- Submit your paper within the given time.

Total marks	**35**
Part 2	**30**
CW	**5**
Marks Obtained	

Section A: Multiple Choice Questions (MCQ) (8x1=8 marks)

For each question 1-8, four options are given. Circle the correct option i, ii, iii or iv.

1. How many bits of data does a Serial Port allow to be transmitted at a time?

i. Only 1-bit at a time **ii.** 100 bits at a time
iii. 1,000 bits at a time **iv.** Zero bits

2. Which computer port is used to connect a printer?

i. Parallel Port **ii.** Mouse Pad
iii. MS Paint **iv.** Game App

3. What is the main task of a Modem?

i. To spray ink on paper **ii.** To convert signals over the Internet
iii. To roll a ball with fingers **iv.** To cool the computer

4. A modem that stays inside the computer casing is called an:

i. External modem **ii.** Internal modem
iii. Paper modem **iv.** Laser modem

5. Where is the physical movement of a mouse displayed?

i. On the Monitor **ii.** Inside the Printer
iii. On the Keyboard **iv.** In the Modem

6. What is the shape of Tracks on the surface of a disk?

i. Triangular rings **ii.** Concentric circular rings
iii. Square boxes **iv.** Straight lines

7. What is a Sector on a disk surface?

i. A smaller pie-shaped segment/division of a track **ii.** A computer game
iii. A printer ribbon **iv.** A keyboard button

8. Which display screen also acts as an input device when touched with a finger or stylus pen?

i. Touch Screen **ii.** Dot Matrix Printer
iii. CPU Chip **iv.** Memory Card

Section B: True or False (5x1=5 marks)

9. Write True or False in the box provided for each of the following statements:

No.	Statement	True / False
i.	A Serial Port allows only 1-bit transmission at a time.	
ii.	USB stands for Universal Serial Bus.	
iii.	A Parallel Port cannot connect a printer.	
iv.	Motherboard is an external hardware device.	
v.	A Scanner is an input device that captures physical documents into digital files.	

Section C: Fill in the Blanks (6x1=6 marks)

10. Fill in the blanks using the correct words from the box below:

Word Bank: [Modulator - Demodulator | Internal | CPU | Modem | Monitor | Hardware]

i. Modem stands for _____.

ii. A modem that stays inside the computer is called an _____ modem.

iii. _____ is known as the brain of the computer.

iv. The task of a _____ is to convert signals over the Internet.

v. Physical movement of a mouse is displayed on the _____.

vi. _____ are the physical components that a computer is made up of.

Section D: Full Forms & Correcting Sentences (4+4=8 marks)

11. Write the full form of each abbreviation (4m) and rewrite the corrected sentences (4m):

Term	Full Form (1 mark each)	Term	Full Form (1 mark each)
i. CPU		**iii. LCD**	
ii. USB		**iv. RAM**	

No.	Incorrect Sentence	Corrected Sentence (1 mark each)
v.	Tracks are triangular rings on a disk.	
vi.	Motherboard is an external hardware device.	
vii.	All actions are controlled by ALU.	
viii.	A scanner is an output device.	

Section E: Short Answer Questions (From Chapter 1A Review) (3x1=3 marks)

12. Answer the following questions briefly:

i. What is the function of a Motherboard? (1 mark)

_____

ii. State one difference between a Scanner and a Printer: (1 mark)

_____

iii. State one difference between a Mouse and a Trackball: (1 mark)

_____
