Singapore School Kinderland

Primary 6 · IT · Term Plan · Term 2

	Ch 2: OpenOffice I - Writer & Impress (Pg 12-28)				Ch 3: OpenOffice II - Calc & Base (Pg 29-48)				Ch 2 Review & Practice		Ch 3 Review & Practice		Term Review		Exam
	Wk 1		Wk 2		Wk 3		Wk 4		Wk 5		Wk 6		Wk 7		Wk 8
	Lesson Objective	Content	Lesson Objective	Content	Lesson Objective	Content	Lesson Objective	Content	Lesson Objective	Content	Lesson Objective	Content	Lesson Objective	Content	
Day 1	St will explore OpenOffice suite as open-source software, start Writer, identify interface (Title Bar, Menu Bar, Standard & Formatting toolbars).	TB Pg 12-15 2.1 Intro OpenOffice & Writer GUI	St will define Presentation software, launch Impress, explore slide layouts, insert text, images, shapes, and create slide decks.	TB Pg 20-24 2.3 Impress Interface & Slide Layouts Lab	St will explore Calc spreadsheet, define grid of rows, columns, cells, active cell, cell address, and data types (Labels, Values, Formulas).	TB Pg 29-33 3.1 Intro to Calc Rows Columns Cells	St will define Database & DBMS, explore Base window, understand Tables, Records (rows), Fields (columns), and Field Data Types.	TB Pg 39-43 3.3 Database Concepts & Base Tables	St will complete Writer review questions (shortcut keys, formatting features, table operations, True/False, full forms).	WS Pg 1 Ch2 Review Q1 Fill Blanks Q2 Writer Features	St will solve Calc spreadsheet problems: cell referencing, formula evaluation, syntax of SUM/AVERAGE/MAX/MIN, chart types.	WS Pg 3 Ch3 Review Q5 Formula Math Q6 Function Syntax	St will revise all OpenOffice applications (Writer, Impress, Calc, Base), comparing their features and practical business uses.	WS All Ch2 & Ch3 Suite Comparison Group Activity	Term Exam
Day 2	St will format documents in Writer: page margins, line spacing, paragraph alignment, insert tables, pictures, and headers/footers.	TB Pg 16-19 2.2 Formatting & Inserting Tables/Images Lab	St will apply Slide Transitions, Custom Animations to slide objects, configure slide show settings, and run presentations (F5).	TB Pg 25-28 2.4 Animations & Slide Show WS Impress Features	St will write arithmetic formulas (+, -, *, /) and use statistical functions: SUM(), AVERAGE(), COUNT(), MAX(), MIN(), and create charts.	TB Pg 34-38 3.2 Formulas, Functions & Charts Lab Practice	St will create tables in Design View, designate Primary Key, understand Queries (data filtering), and simple Forms & Reports.	TB Pg 44-48 3.4 Primary Key, Queries & Reports WS DB Concepts	St will complete Impress review questions (slide transitions vs animations, slide show shortcuts, practical case studies).	WS Pg 2 Ch2 Review Q3 Transitions vs Animations Q4 Case Study	St will solve Base database problems: identifying primary keys, defining field types, differentiating Table vs Query vs Report.	WS Pg 4 Ch3 Review Q7 Primary Key Tasks Q8 Table vs Query	St will complete the full term revision worksheet covering all question patterns from both chapters.	WS Comprehensive Revision Worksheet	Results & Feedback
