Concept 2: The Keyboard & The Mouse (Our Hands for the Computer)

How do we give commands to the computer? We use the keyboard and mouse to tell it what to do!

1. The Keyboard:

- Has many small buttons called **KEYS**.
- **Alphabet Keys (A–Z):** 26 keys to type letters & names.
- **Number Keys (0–9):** To type numbers and count.
- **Spacebar:** The longest key on keyboard for blank spaces!

2. The Computer Mouse:

- A small pointing device kept on a flat **mouse pad**.
- Has **2 buttons** (Left & Right) and a **Scroll Wheel**.
- Moving the mouse moves the **Arrow Pointer** on screen.
- Used to point, select items, and **draw pictures**!
