Concept 3: Printer, Speakers & Headphones (Output Devices)

These special parts give us results from the computer – on paper sheets or through sounds!

1. The Printer:

- Prints drawings and text from screen onto **paper**.
- The printed paper is called a **Hard Copy**.
- Can print in black & white or in vivid colors!

2. Speakers & Headphones:

- **Speakers:** Let everyone in the room hear rhymes & music.
- **Headphones:** Placed over your ears so only **one person** hears quietly without disturbing others!

Activity 3.1: Word Bank Fill in the Blanks

Word Bank: • Paper • Music • Headphones • Printer • Hard Copy

1. A _____ prints our work from the screen onto paper.
2. We turn on speakers to listen to lively _____ and cartoon voices.
3. A printer gives output on a clean sheet of _____.
4. To listen to stories quietly without disturbing anyone, we wear _____.
5. The printed sheet of paper coming out of the printer is called a _____.

Activity 3.2: Which Device Do I Need? (Solve the Story Problems)

1. *Riya drew a beautiful flower on computer and wants to give it to Grandma. What does she need?*

   → Answer: She needs a _____ .

2. *The whole classroom wants to sing along with the 'Old MacDonald' song. What should teacher use?*

   → Answer: Teacher should use the _____ .

3. *Ayaan's baby brother is sleeping, but Ayaan wants to hear an audio story. What should he wear?*

   → Answer: Ayaan should wear _____ .

Activity 3.3: Circle YES or NO

1. Can computer speakers print letters on paper? (**YES** / **NO**)
2. Do headphones fit comfortably over your ears? (**YES** / **NO**)
3. Does a printer use ink and paper to work? (**YES** / **NO**)

🎨 Activity 3.4: Creative Lab – Draw Your Favorite Headphones!

Draw a stylish pair of headphones with soft ear cushions and a headband. Color them with your favorite colors:
