CHAPTER 3 · LESSON 1: FEATURES OF OPERATING SYSTEM & GUI (Pages 36–37)

■ **One-Line Topic Concept:** An Operating System (OS) is the most important software of a computer that helps users communicate with hardware, and GUI gives friendly pictures and icons to click easily!

■■ What is an Operating System (OS)?	■■ What is a GUI (Graphical User Interface)?
• It is **impossible** to work on a computer without an OS. • It acts as a bridge between the user and hardware (keyboard, mouse, screen). • It manages all computer parts smoothly.	• A **user-friendly** operating system. • Gives us pictorial options (icons, buttons, menus) to click instead of typing codes. • **Microsoft Windows** is the world's most popular GUI!

Activity 1 · Choose and Circle the Best Answer:

1. What is the most important software of any computer?
