■ CHAPTER 4: E-COMMERCE • LESSON 6: DISADVANTAGES & RISKS (Page 46)

■ Topic 4.4 Concepts — Pitfalls for Buyers & Sellers:
• **For Buyers:** No personal touch; misleading advertisements; cannot judge size (shoes/clothes); cannot feel fabric quality; high risk of cyber crimes.
• **For Sellers:** Fully dependent on power and Internet; losses from returned items; intense online competition; physical health strain (eye pain, backache); complicated registrations.

■■ Disadvantages for the Buyers	■■ Disadvantages for the Sellers
• No personal face-to-face contact with seller. • Misleading ads cause wrong item purchases. • Cannot judge exact size of dresses and shoes. • Cannot touch or feel the fabric quality. • High danger of cyber crime & card scams.	• 100% dependent on power and Internet connectivity. • Unexpected financial losses from returned goods. • Extremely competitive; hard to stand out. • Long screen hours cause eye strain & body ache. • Complicated online registration processes.

═■ WORK TO DO 10: Problem Buster Match-Up

1. Younus's Eid dress was too large:	**Cannot judge the size of clothing online**
2. Grandma lost 35,000 Taka from her card:	**Danger of cyber crime and online card fraud**
3. Huzefa's shop was halted during the storm:	**Fully dependent on electricity and Internet connection**
4. Customers received clothes that felt rough:	**Cannot physically touch or check fabric quality**
5. Sellers getting eye pain after long screen hours:	**Physical stress from working long hours online**

═■ WORK TO DO 11: Solution Finder for Smart Kids (Write detailed solutions)

1. What should a buyer do if an item arrives damaged or incorrect?

Model Answer / Key: Take clear photos, contact customer support immediately, and request a return or replacement.
(Teacher Evaluation: Award full credit for equivalent correct explanation in student's own words.)

2. How can online sellers and computer users protect their eyes during long screen hours?

Model Answer / Key: Take regular 20-20-20 eye breaks, blink often, maintain good lighting, and sit with straight posture.
(Teacher Evaluation: Award full credit for equivalent correct explanation in student's own words.)

3. Why is it dangerous to click on unfamiliar discount links sent by strangers online?

Model Answer / Key: They may lead to phishing scam websites designed to steal bank card details or install viruses.
(Teacher Evaluation: Award full credit for equivalent correct explanation in student's own words.)

4. Why do many online customers feel disappointed when an item looks different in real life than on screen?

Model Answer / Key: Lighting in photos can be misleading, and screen colors can look different from actual products.
(Teacher Evaluation: Award full credit for equivalent correct explanation in student's own words.)
