CHAPTER 5A · LESSON 2: EDITING TEXT — CUT, COPY & PASTE

Concept: Editing means making changes to typed text. The Clipboard is temporary memory storing cut or copied text until pasted.

Activity 1: Match the Editing Command to Function

1. Cut (Ctrl + X) -> (A) Places a duplicate copy on Clipboard while keeping original
2. Copy (Ctrl + C) -> (B) Inserts clipboard text into the current cursor position
3. Paste (Ctrl + V) -> (C) Removes selected text from original spot and saves to Clipboard

Activity 2: Keyboard Shortcut Speed Test

1. Cut shortcut: Ctrl + _____ 2. Copy shortcut: Ctrl + _____
3. Paste shortcut: Ctrl + _____ 4. Undo shortcut: Ctrl + _____
