CHAPTER 5A · LESSON 4: PARAGRAPH ALIGNMENT & LISTS

Concept: Alignment refers to how text lines up between left and right margins. Four alignments: Align Left, Center, Align Right, and Justify. Bullets and Numbering create ordered lists.

Activity 1: Matching Alignment Types

1. Left Align (Ctrl+L) -> (A) Evenly lines up text on both left and right margins
2. Center Align (Ctrl+E) -> (B) Default alignment, starts text from left border
3. Right Align (Ctrl+R) -> (C) Used for main headings, poetry, and title lines
4. Justify (Ctrl+J) -> (D) Lines up text against right margin (dates, signatures)

Activity 2: Bullets vs Numbering

When should you use 'Numbering' instead of 'Bullets'?

Answer: _____
